Dear Luciano,

On behalf of Dr. Fukushima and myself, I would like to thank you for traveling to Miami, donating your time and teaching to what has proven to be one of the most successful courses we have ever been involved in. You will be delighted to know that the participants filled out the evaluation forms with glowing remarks, with very good or excellent grades on every aspect of the course.

We thank you for making this course possible and it is obviously because of the quality of your presentation that we have achieved such a high level. Taka and I count on your support, we hope, in future years.

Sincerely,

Jacques J. Morcos, M.D., F.R.C.S. (Eng), F.R.C.S. (Ed)
